McMillan named manager of Marshall Technology Transfer

Vernotto McMillan has been named manager of the Marshall Center's Technology Transfer Department. In his new role, he leads a team of 30 senior engineers, scientists and contract personnel to stimulate broad use of NASA-developed technologies by American private enterprise. He began his NASA career in 1983 as a materials engineer at Marshall and has worked in materials and processes and served as subsystem manager on the Space Shuttle solid rocket motors. His most recent assignment was deputy manager of Technology Transfer.

**Space Shop in
Bldg. 4203 closed
for inventory
Monday**

Financial document cutoff dates to be strictly enforced

Since the Marshall Center is the pilot NASA Center for the Core Financial Project, fiscal year 2002 target cutoff dates must be met. September cutoff dates and times for all financial documents, including Monthly Contractor Financial Reports (NASA Form 533), should be received in the Accounting Operations Office on the following dates: Interim Closing, 10 a.m. Monday; Final Closing, noon Wednesday. The anticipated "go-live" date for the new financial management system is Oct. 21. Financial cutoff dates will be strictly enforced to meet the conversion schedule.
